One new positive case of COVID-19 reported on Kaua'i

LĪHU'E — The Kaua'i District Health Office today reported one new positive case of COVID-19. This brings Kaua'i's total number of active cases to two, and the cumulative total of cases to date is now 59.

The new case is an adult male visitor who is currently in isolation. The source of his infection appears to be related to mainland travel, and the case has been in travel quarantine.

The Department of Health completed its contact tracing investigation and all close contacts have been directed to quarantine and offered a test.

As a reminder, this virus is widespread in our state and it continues to be important for everyone to be careful on Kaua'i – wear your masks, keep your distance, and avoid large gatherings.

Kaua'i's most recent case will be reflected tomorrow in the statewide count, which is posted daily at noon at hawaiiicovid19.com. For local updates, visit the Kaua'i Emergency Management Agency page, www.kauai.gov/COVID-19.
